

ABOUT US

UnComplycate is an end-to-end compliance and contract management solutions provider that integrates domain experience with IT-enabled implementation, monitoring and management protocols.

With more than thirty years' experience in helping clients discharge their compliance obligations, we have developed a repository of significant knowledge and practical experience in advising and assisting businesses on their regulatory compliance, litigation management, notice and contract management and other attendant requirements. We create bespoke products for clients that include, among other things, an audit of the functions of the company, offering technology-enabled platforms that provide solutions for effective control over the compliance and contract management functions. These services are not limited by geography and can be seamlessly extended to all operating sites of the client.

OUR SERVICE OFFERINGS

- An in-depth analysis to identify various bottlenecks that business and its subsidiaries in form of factory units, warehouses, offices etc. would be facing or might face in times to come.
- Confident understanding of key responsibilities involved but also the probable outcomes.
- We create the foundation through detailed checks for benchmarks to be met in terms of.

- Re-engineering internal and external processes
- Standardization of process across all offices globally results in uniformity of reports
- Processes clarified in simple language for effortless execution of compliances

- Robust contracts and agreements management to take care of all contractual arrangements
- The e-contract management service support not only keeps a track of the timestamps but also provides an in-depth analysis of how best the contractual arrangements can be taken care of in terms of renewals, activation, execution etc.

- Simplifying compliance has always been a key motive for us in order to remove the clutter around it and create a more confident Mindspace for all our clients.
- Cloud based seamless technology with internal process mapping intelligence to simplify compliance

- In a jurisdiction like that of Indian where a decently size business entity would be operating in at least 20 states, it is indeed an important function of the legal desk to stay abreast of all the applicable laws, amendments, acts, bills, legislative policies that directly or indirectly affect the business' objectives.
- We make it easier for clients by notifying them on a real-time basis of any such legal updates.
